resistant sole

Antistatic shoe

Breathable upper

Water-repellent
upper

Steel or composite
toe cap

UPPER

Highly resistance, ultra-lightweight, soft micro fibre. Breathable and water-repellent, long lasting quality. Highly resistant, breathable fabric insets. Water repellent treatment which repels water and oil based stains.

LINING

Padded, non woven fabric, highly resistant to wear and tear, comfortable.

INSOLE

Ergonomic, in removable felt with aluminium insert for exceptional thermal insulator, suitable for low temperatures.

SOLE

Anti-static, dual density, polyurethane light-weight and flexible. Out sole with special reliefs and special polyurethane mixture which guarantees hi grip on all surfaces and in all conditions, resistant to corrosion by oils and hydrocarbons. Shock absorption in the heel area.

SAFE-T-TEC
PROFESSIONAL SAFETY EQUIPMENT

TOE CAP

Composite, Ultra-lightweight, undetectable by metal detectors. Shock absorptions max. 200 Joules, exceptional elastic memory capacity.
