# **PRODUCT DESCRIPTION**

Shock absorbent heels

Oil and fuel resistant sole

Antistatic shoe

Breathable upper

Water-repellent upper

Steel or composite toe cap

#### UPPER

Highly resistant, ultra-lightweight, soft microfibre. Breathable and water-repellent, long-lasting quality. Highly-resistant, breathable

fabric inserts. Water-repellent treatment which repels water and oil-based stains.

### LINING

Padded, non-woven fabric, highly resistant to wear and tear, comfortable.

# INSOLE

Removable, antibacterial, absorbent, FUSSTATIC, which ensures the wearer's foot remains dry at all times. **SOLE** 

Anti-static, dual-density, polyurethane, particularly lightweight and flexible. Outsole with special reliefs and special, polyurethane

mixture which guarantees hi-grip on all surfaces and in all conditions, resistant to corrosion by oils and hydrocarbons. Shock

absorption in the heel area.

## TOE CAP

Steel, shock absorption max. 200 Joules.
